FOR DISTRIBUTORS

Why partner with onblend

Founded in Spain

Engineered & produced in China

Built for the present and future of the food service industry.

- Limited distribution — curated international network
- Full marketing support: images, videos & competitive analysis
- Full serviceable unit with warranted spare parts
- High quality: manufacturing, components & certifications
- 40–50% more cost-effective than comparable USA brands
- Lower import duties vs. non-China brands
- WiFi: remote updates, service & promotions
- Engineered for QSR & fast food — present & future needs
- Brushless motor available for high-volume shops
- Continuous improvements programme
- Foam Jar & new products coming 2027
- Cost effective alternative to most well-known US / EU brands

FOR END USERS

Why choose onblend

Consistent. Quiet. Connected.

The professional blending standard for bars, restaurants, hotels and QSR chains.

- Blend consistently in seconds
- 5 preset programs for fast, easy access to common blends
- 99+ presets programs available on the WebApp
- WiFi connected for remote programming
- Quieter, faster & more efficient than most units in the market
- Cost effective vs most well-known USA / EU brands
- Ergonomic jar and lid
- InCounter or CounterTop installation
- Brushless motor for ultra-efficient energy in high-volume stores
- Curated distributor network — 20 countries in 2026
- 25 more countries coming in 2027
